

**IN THE SPECIFICATION:**

Please amend the specification as follows:

Paragraph beginning on page 4, at prenumbered line 13, has been amended as follows:

The lower valve base 120 is assembled with the upper valve base ~~420~~ 110 to form the valve chamber with a sealing neck 113. The lower valve base 120 has a joint ring 121, a pivoting salient 122 and a plurality of water-outlets 123 between the joint ring 121 and the pivoting salient 122. The joint ring 121 of the lower valve base 120 is positioned to and connected with the joint ring 115 of the upper valve base 110 by bolts 127, so that the upper valve base 110 and the lower valve base 120 can be assembled together to be a valve body. The pivoting salient 122 is applied to pivot with the ball connect rod 140, has a guiding slot hole ~~424~~ 124.
